SUMMARY

As an Advanced Diploma candidate in Software Development, I have a solid foundation in software development and SCRUM methodologies. My passion for technology drives my commitment to improving efficiency and quality assurance through Agile practices. With strong management and teamwork skills, I successfully lead and collaborate on projects. I strive to make meaningful contributions to computer science.

EDUCATION

Mohawk College

September 2023 – December 2026

Computer System Technology, Software Development

Relevant Courses: Programming in Java, Python, JavaScript, Software Testing, Database Theory, System Analysis, PHP, Project management, Web programming, ASP.NET, and C#.

- Recipient of Dean's Honours List.

St. John Ambulance Saint-Jean

Novembre 2022

Completed Emergency First Aid – CPR – AED

Ishraq University

September 2017– April 2021

Bachelor of Economics and Management

Cambridge University

September 2020 – March 2021

Diploma Peace Leader Course (Online)

Afghan Institute of Learning

March 2021

Leadership, Women Empowerment and Management Course

PROFESSIONAL EXPERIENCE

Meraj High School

Afghanistan

English Language and Computer Instructor

March 2015– September 2019

- Mentored students in problem-solving and critical thinking, preparing them for technical certifications and job readiness.
- Created and maintained technical content, fostering clear and structured explanations for complex topics.
- Streamlined student performance tracking by creating automated Excel macros and reporting dashboards.

Leadership and Project Management Roles (2019 - Present)

- Held various leadership positions, including Youth Ambassador for RightsToLearn, Global Shapers Community Herat Hub, Ambassador of International Youth Conferences, Ambassador for the Afghan

Youth Peace Council, International Student Community Model United Nations, Member of the Leadership Board for Peace in Herat, and Deputy Country Coordinator for WSDA New Zealand.

- Directed and managed diverse teams on local and international initiatives, fostering collaboration, problem-solving, and strategic planning.
- Applied project management principles to organize events, execute impactful programs, and ensure timely delivery of goals, enhancing operational efficiency and cross-functional communication.
- Cultivated skills in leadership, team dynamics, and conflict resolution, demonstrating the ability to manage complex projects under tight deadlines.

PROJECTS & OUTSIDE EXPERIENCE

Taking Note (React JS, ASP.Net, Material UI, PostgreSQL)

Personal Project

2024 - 2025

Developed a Taking Note app from scratch, integrating both frontend and backend functionalities to replicate the actions of a Taking Note. The application is fully responsive.

Please be advised that the current configuration will not function as intended, as the backend is developed in ASP.NET with PostgreSQL, in the local environment only.

Weather Display (HTML, CSS, JS)

Personal Project

2024 – 2025

Created a full-stack application called Weather Display from scratch, incorporating both frontend and backend functionalities to display the current weather in various cities, utilizing CSS and JS.

Rock Paper Scissors Game (HTML, CSS, JS)

Personal Project

2024 – 2025

Developed an engaging Rock-Paper-Scissors game where users compete against the computer. This project highlights my skills in programming logic and user interaction.

SKILLS & INTERESTS

Skills: Node.js, Agile, GIT, GIT Hub, JAVA, PostgreSQL, React.js, Python, Bootstrap, ASP.NET, C#, Mobile Web Programming, PHP, Unity.

Interests: Web Development, Hackathons, Mentoring, Chess, Travelling.
